

"Disaster knows no borders neither should humanity"

Oct 8th – A devastating earthquake strikes South Asia – northern Pakistan, Indian and Pakistani Kashmir – leaving at least **90,000 dead, and 3-4 million homeless.**

TODAY - One month after the earthquake, many survivors in remote areas are still in need of immediate relief and evacuation.

A brutal Himalayan winter is approaching, a massive second wave of death is expected if help – shelter, supplies, medicine – doesn't reach survivors **soon.**

YOU can make a difference, and the time to act is NOW
